cancer research. Physicians at St. Luke's MSTI strongly endorse clinical trials. The focus of oncology professionals is on improved cure rates, more effective treatments with fewer side effects, longer survival, and improved quality of life. Clinical research advances science and ensures that patient care approaches the highest possible level of quality. Patients who participate in clinical trials have the opportunity to advance evidence-based medicine. More recently, society requests we help them understand the cost of treatment-examining not just financial obstacles, but social and resource-draining obstacles as well. This clinical research work is known as Cancer Care Delivery Research. As St. Luke's MSTI has grown, the commitment to research has deepened. While the vast majority of research activity has involved participation in cooperative group trials, St. Luke's MSTI also participates in pharmaceutical-sponsored and investigator-initiated clinical research.

Clinical research services are available at all five St. Luke's MSTI cancer treatment clinics throughout Southwest and South Central Idaho. These clinics represent the regional direction of the entire St. Luke's MSTI program. Adult medical, gynecologic, urologic, hepatobiliary, and radiation oncology research studies are offered at all St. Luke's MSTI facilities. Pediatric and autologous stem cell transplant research opportunities are offered only at the Boise site.

The St. Luke's MSTI research mission is "To improve outcomes and quality of life of patients with cancer and blood disorders through research." Its vision is "To transform cancer care by aligning with MSTI physicians and other providers to deliver advanced, quality,

seamless patient care and help patients achieve their best outcome and quality of life across the cancer care continuum." St. Luke's MSTI's pediatric and adult research programs undergo regularly scheduled external auditing, and continue to satisfy all requirements for conducting compliant research. Approximately 41 clinical trial opportunities are available for adult patients, and approximately 46 protocols are available for pediatric oncology patient enrollment. In addition to therapeutic protocols, registry and biorepository studies are also offered at St. Luke's MSTI.

Breast Cancer Detection Centers:

Created in 1973 as one of only 20 survey projects of the National Cancer Institute, St. Luke's Breast Cancer detection centers (BCDC) have been serving women with low-cost mammography, breast examination, and education for decades. Most of St. Luke's BCDC sites feature the latest in breast screening technology: Full field Digital Mammography. MSTI has eight stationary sites in five separate Idaho cities (Boise, Meridian, Caldwell, Mountain Home, and Ketchum), and two diagnostic centers in Boise and Meridian. In addition, MSTI has one mobile unit that travels to 11 of the 20 counties MSTI serves.

Total patient procedures for BCDC and diagnostic imaging for FY'16 were 64,035 across eleven BCDC sites and two Diagnostic Imaging Sites.

Form 990, Part VI, Section B, line 11:

The Form 990 (Form) is reviewed by an independent public accounting firm based on audited financial statements and with the assistance of the organization's finance and accounting staff. A complete copy of the Form 990 is made available to the Board of Directors prior to filing.

Form 990, Part VI, Section B, Line 12c:

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must recuse themselves from participating in any discussion related to the conflict.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's boards of directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile of

those surveyed. These surveys are usually completed every two years, with the most recent compensation survey completed during calendar year 2016.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay.

To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions,

St. Luke's has a Physician Arrangements policy that specifies circumstances

requiring a third-party valuation and also periodically uses third-party consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.

Form 990, Part VI, Section C, Line 19:

The organization's governing documents, conflict of interest policy, and financial statements are not available to the public. Form 990, which contains financial information, is available for public inspection.
